Oyster Bay is now the number 2 premium white wine in the USA. In recognition of its continued growth and strong brand position, it was awarded Hot Brand for the seventh consecutive year from New York's Impact Magazine.

EXECUTIVE CHAIRMAN'S REPORT

Delegat Group Limited (the Group) presents its operating and financial results for the six months ended 31 December 2016.

PERFORMANCE HIGHLIGHTS

- Record global case sales of 1,446,000.
 - Record operating NPAT of \$24.7 million.
 - Capital investment of \$21.9 million in growth assets including vineyard development and the Hawke's Bay and Marlborough Wineries.
 - Oyster Bay received the 'Hot Brand' award from New York's highly regarded Impact Magazine for a seventh consecutive year.
 - Barossa Valley Estate Shiraz 2014 and Grenache Shiraz Mourvèdre 2014 were both awarded 90 Points by James Halliday, Australia's leading wine writer.
 - Delegat Crownthorpe Terraces Chardonnay 2015 received a Gold Medal at the New Zealand International Wine Show 2016.
-

The Group presents its financial statements in accordance with the New Zealand equivalents to International Financial Reporting Standards (NZ IFRS). The Directors continue to be of the view that the results reported under NZ IFRS do not provide adequate insight into the Group's underlying operational performance, primarily due to a number of fair value adjustments that are required to be reported on.

To better understand the operating performance, the Group has published an Operating Performance report and reconciliation of Operating Profit to Reported Profit. This reconciliation eliminates from each line in the Statement of Financial Performance all fair value adjustments.

OPERATING PERFORMANCE

A record Operating NPAT of \$24.7 million was generated compared to \$21.1 million for the same period the previous year. Operating EBIT of \$41.4 million is \$7.6 million higher than for the same period the previous year.

Delegat achieved Operating Revenue of \$135.8 million on global case sales of 1,446,000 in the six month period. Revenue is up \$7.2 million on the same period last year due to a 14% increase in global case sales, partially offset by the unfavourable impact of foreign exchange rate changes.

The Group's case sales performance and foreign currency rates achieved are detailed in table 2.

Operating Gross Margin is up 6% on the same period last year and is impacted by lower cost of goods per case arising from the higher yielding 2016 vintage. Operating Expenses at \$35.3 million

TABLE 1.

Operating Performance

Operating EBITDA % of Revenue	36%	32%	

Notes:

1 Operating Revenue is before fair value movements on derivative instruments (if gains).

2 Operating Gross Profit is before the net fair value movements on biological produce (harvest adjustment) and the NZ IFRS adjustments excluded in Note 1.

3 Operating Expenses are before fair value movements on derivative instruments (if losses) and share-based payments.

4 Operating EBIT, EBITDA and NPAT are before any fair value adjustments.

“Delegat achieved record global case sales and Operating NPAT in the first half of the 2017 financial year.”

are \$2.9 million lower than the same period last year. This is due to the impact of a stronger New Zealand currency on the translation of off-shore expenditure.

NZ IFRS FAIR VALUE ADJUSTMENTS

In accordance with NZ IFRS the Group is required to account for certain of their assets at fair value rather than at historic cost. All movements in these fair values are reflected in and impact the Statement of Financial Performance. The Group records adjustments in respect of two significant items at the half-year reporting date as detailed in table 3:

- Harvest Provision Release (Grapes) – Inventory is valued at market value, rather than costs incurred, at harvest. Any fair value adjustment is excluded from Operating Performance for the year, by creating a Harvest Provision. This Harvest Provision is then released through Cost of

Sales when inventory is sold in subsequent years. The adjustment provides a write-down of \$8.3 million (December 2015: \$4.8 million);

- Derivative Instruments held to hedge the Group's foreign currency and interest rate exposure. The mark-to-market movement of these instruments at balance date resulted in a fair value write-up of \$0.6 million (December 2015: \$5.4 million).

These together with minor adjustments in respect of share-based payments, net of taxation, amount to a write-down of \$5.6 million (December 2015: write-up of \$0.4 million).

RECONCILIATION OF REPORTING TO OPERATING PERFORMANCE

Accounting for all fair value adjustments under NZ IFRS, the Group's reported unaudited financial performance for the six months ended 31 December 2016 is reconciled to Operating Profit as detailed in table 4.

CASH FLOW

The Group generated Cash Flows from Operations of \$24.9 million in the current half-year, which is an increase of \$9.8 million on the same period last year. This increase is primarily due to higher receipts from customers due to the higher case sales. A total of \$23.0 million was invested in additional property, plant and equipment during the period, including vineyard development in New Zealand and the Barossa Valley, and development of the Hawke's Bay and Marlborough

wineries, which will provide earnings growth into the years ahead. The Group distributed \$12.1 million to shareholders in dividends. Additional borrowings of \$10.3 million were drawn down to fund the increased capital investment during the six months.

The Group has Net Debt of \$292.0 million, compared to \$282.7 million at 30 June 2016 – an increase of 3% and well within the Group's long-term bank debt facilities.

LOOKING FORWARD

The results achieved in the six months to December 2016 are testament to the strength of the Group's business model. Delegat Group is well positioned to pursue its strategic goal to build a leading global Super Premium wine company. The Group is on target to achieve global case sales for the full year of 2,632,000, up 9% on last year. The Group continues to face risks in the form of exchange rate volatility, which makes it difficult to forecast financial performance. Based on the prevailing exchange rates, the Group forecasts a 2017 operating profit result in line with last year's record performance.

STATEMENT OF ACCOUNTING POLICIES

REPORTING ENTITY

The financial statements presented are those of Delegat Group Limited and its subsidiaries (the Group). Delegat Group Limited is a company limited by shares, incorporated and domiciled in New Zealand and registered under the Companies Act 1993. The Parent shares are publicly traded on the New Zealand Stock Exchange.

The financial statements for the Group for the six months ended 31 December 2016 were authorised for issue in accordance with a resolution of the Directors on 27 February 2017.

BASIS OF PREPARATION

The interim consolidated financial statements of the Group are for the six months ended 31 December 2016 and have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand (NZ GAAP) and NZ IAS 34: Interim Financial Reporting. Accounting policies applied in these interim financial statements comply with New Zealand equivalents to International Financial Reporting Standards, other applicable Financial Reporting Standards (NZ IFRS) and NZ IFRIC interpretations issued and effective or issued and early adopted as at the time of preparing these statements (February 2017) as applicable to the Group as a profit-oriented entity.

The interim financial statements are presented in New Zealand Dollars, rounded to the nearest thousand. They are prepared on a historical cost basis except for derivative financial instruments and biological produce which have been measured at fair value.

The preparation of the interim financial statements in conformity with NZ IAS 34 requires the Group to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may vary from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

FINANCIAL INSTRUMENTS

The Group holds interest rate swaps at fair value through the statement of financial performance. In estimating the fair value of the interest rate swaps the Group uses level 2 inputs of the fair value measurement hierarchy. The Group's interest rate swaps fall into level 2 of the fair value measurement hierarchy because their fair value is determined using inputs, other than quoted prices included in level 1, that are observable for the asset or liability, either directly as prices or indirectly (derived from prices). The fair values are derived through valuation techniques that maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates.

STATEMENT OF ACCOUNTING POLICIES continued

HEDGE OF NET INVESTMENT IN FOREIGN OPERATION

For hedges of a net investment in a foreign operation, the effective portion of the gain or loss on the hedging instrument is recognised in the statement of other comprehensive income and accumulated in the foreign currency translation reserve, while any ineffective portion is recognised immediately in the statement of financial performance. On disposal of the foreign operation, the cumulative amount of any such gains or losses accumulated within equity are transferred to the statement of financial performance.

Included in interest-bearing loans and borrowings at 31 December 2016 is a borrowing of A\$29,350,000 which during the period has been designated as a hedge of the net investment in Barossa Valley Estate Pty Limited (BVE). This borrowing is being used to hedge the Group's exposure to the AUD foreign exchange risk on this investment. Gains or losses on the retranslation of this borrowing are transferred to the statement of other comprehensive income to offset any gains or losses on translation of the net investment in BVE. There is no ineffectiveness in the period ended 31 December 2016.

CHANGES IN ACCOUNTING POLICIES

The accounting policies adopted are consistent with those of the previous financial year, with the exception of the adoption of Amendments to NZ IAS 16: Property, Plant and Equipment and NZ IAS 41: Agriculture on 1 July 2016 (see below). Refer to the published financial statements for the year ended 30 June 2016 for a complete listing of the Group accounting policies.

STATEMENT OF ACCOUNTING POLICIES continued

CHANGES IN ACCOUNTING POLICIES (CONTINUED)

On 1 July 2016, the Group adopted Amendments to NZ IAS 16: Property, Plant and Equipment and NZ IAS 41: Agriculture. Following implementation of these amendments, the Group's bearer plants (vines) fall within the scope of NZ IAS 16 rather than NZ IAS 41. Under NZ IAS 16, the Group has the ability to choose between the cost model and the revaluation model for subsequent measurement and there is a requirement to depreciate the bearer plants over their estimated useful lives. In accordance with the requirements of NZ IAS 8: Accounting Policies, Changes in Accounting Estimates and Errors the financial statements for the periods ended 30 June 2016 and 31 December 2015 have been restated and in accordance with NZ IAS 34 a statement of financial position as at the beginning of the preceding period has been presented.

Under NZ IAS 16, the Group has chosen to adopt the cost model to value their bearer plants and has applied the fully retrospective transition provisions. This means that all fair value increments previously recognised have been reversed and the Group's bearer plants depreciated from their original planting dates. The estimated useful life of the Group's bearer plants is 50 years. As shown in the table below, this has decreased the value of the Group's bearer plants which are now included in property, plant and equipment and decreased the Group's deferred tax liability, with a corresponding decrease in equity.

Under NZ IAS 41, at the half year reporting date the Group previously recognised a fair value increment on the Group's bearer plants, representing the value of the agricultural produce (grapes) attached to the bearer plants at this date, and accordingly expensed the growing costs incurred during the period. Following the adoption of the amendments above, the fair value of the agricultural produce (grapes) at the half year reporting date is determined separately from the value of the bearer plants and included within inventory. The Group considers the growing costs incurred for the period to be the best indicator of the fair value of agricultural produce at the half year reporting date.

NOTES TO THE FINANCIAL STATEMENTS

1. SEGMENTAL REPORTING

The Group reviews its operational performance based upon the management and the geographic areas in which their customers are based. Financial information which is available to management in order to assess segment performance and investment opportunities is presented on the same basis. In accordance with NZ IFRS 8: Operating Segments this forms the basis of presentation for Segment Reporting and is the format adopted below:

– Delegat Limited (Delegat) is party to vineyard leases and has interests in freehold land and winery infrastructure which allows the company to grow, harvest and make finished wine to be marketed, distributed and sold into the Super Premium wine markets. Delegat sells and markets its product through a combination of subsidiary companies based overseas or to customers and distributors directly in the New Zealand, Canadian, Asian and Pacific Island markets. Delegat Australia Pty Limited, Delegat Europe Limited, and Delegat USA, Inc. act as distributors and assist in the marketing of product in their respective geographic regions. Wines are sold all year round to all regions and the Group considers there is no significant variation in revenues throughout the year.

The Group implements appropriate transfer pricing regimes within the operating segments on an arm's length basis in a manner similar to transactions with third parties.

Management monitor the operating results of its business units separately for the purpose of making resource allocations and performance assessments. Segment performance is evaluated based on operating profit or loss, which may be measured differently from operating profit or loss in the consolidated financial statements as segment reporting is based upon internal management reports. The main differences are a result of some deferred tax balances being recognised upon consolidation not being allocated to individual subsidiaries. Also intercompany stock margin eliminations are managed on a group basis and are not allocated to operating segments.

JAMES HALLIDAY WAS QUITE MOVED.

— *Barossa Valley Estate Shiraz, 90 Points, James Halliday* —

In recently awarding our Barossa Valley Estate Shiraz 2014 with 90 Points, leading wine writer and senior wine critic James Halliday compared it to "a V8 turbo engine"

that "also knows how to quietly mooch along for a Sunday drive... there's a surprising lightness of foot, so pick your time and your speed." Moving praise indeed.

Experience the wines that made the Barossa great.
