CHAIRMAN'S REPORT 2024

On behalf of the Board of Directors of Delegat Group Limited, I am pleased to present its operating and financial results for the six months ended 31 December 2023.

The Group presents its financial statements in accordance with the New Zealand equivalents to International Financial Reporting Standards (NZ IFRS).

To provide further insight into the Group's underlying operational performance, the Group has also included in this report an Operating Performance Report. This Operating Performance Report excludes the impact of fair value adjustments required under NZ IFRS for grapes and derivative financial instruments. As a fully integrated winemaking and sales operation, Operating Profit includes the fair value adjustment in respect of grapes when packaged wine is sold rather than on harvest of the grapes, and the fair value adjustment on derivative financial instruments when these foreign exchange contracts and interest rate swaps are realised.

The Group has included a reconciliation of Operating Profit to Reported Profit which eliminates from each line in the Statement of Financial Performance the impact of these fair value adjustments.¹

OPERATING PERFORMANCE

An Operating NPAT of \$37.8 million was generated compared to \$40.2 million for the same period in the previous year. Operating EBIT of \$62.0 million is \$0.2 million lower than the same period last year (refer to table 1).

TABLE 1 OPERATING PERFORMANCE¹

NZ\$ millions	Dec 2023	Dec 2022	% change vs 2022
Operating Revenue ¹	198.6	198.8	0%
Operating Gross Profit²	96.1	95.6	1%
Operating Gross Margin	48%	48%	
Operating Expenses ³	(34.1)	(33.4)	-2%
Operating EBIT⁴	62.0	62.2	0%
Operating EBIT % of Revenue	31%	31%	
Interest and Tax	(24.2)	(22.0)	-10%
Operating NPAT⁴	37.8	40.2	-6%
Operating NPAT % of Revenue	19%	20%	
Operating EBITDA⁴	74.8	74.2	1%
Operating EBITDA % of Revenue	38%	37%	

Notes:

- Operating Revenue is before fair value movements on derivative instruments (if gains).
- Operating Gross Profit is before the net fair value movements on biological produce (harvest adjustment) and the NZ IFRS adjustments excluded in Note 1.
- Operating Expenses are before fair value movements on derivative instruments (if losses) and any other one-off non-operating items.
- Operating EBIT, EBITDA and NPAT are before any fair value adjustments and any other one-off non-operating items.

1. Operating Performance is a non-GAAP measure and as such does not have a standardised meaning prescribed by GAAP. It may therefore not be comparable to non-GAAP measures presented by other entities.

OPERATING PERFORMANCE CONTINUED

Delegat achieved Operating Revenue of \$198.6 million on global case sales of 1,924,000 in the six month period. With supply chains stabilising, distributors and retailers have reduced inventory holdings resulting in lower replenishment orders for the year to date. As a result, revenue is down \$0.2 million on the same period last year primarily due to the impact of a 2% decrease in global case sales, offset by favourable foreign exchange movements .

The Group's case sales performance and foreign currency rates achieved are detailed in table 2.

Operating Gross Profit is up 1% on the same period last year. Operating expenses (before NZ IFRS adjustments) at \$34.1 million are \$0.7 million higher compared to the same period in the previous year. This is due to increased people-related costs and the unfavourable impact of foreign exchange on offshore in-market costs.

NZ IFRS FAIR VALUE ADJUSTMENTS

In accordance with NZ IFRS, the Group is required to account for certain of their assets at 'fair value' rather than at historic cost. All movements in these fair values are reflected in and impact the Statement of Financial Performance. The Group records adjustments in respect of two significant items at the half-year reporting date, as detailed in table 3.

- Harvest Provision Release (Grapes) – Inventory is valued at market value, rather than costs incurred, at harvest. Any fair value adjustment is excluded from Operating Performance for the year, by creating a Harvest Provision. This Harvest Provision is then released through Cost of Sales when inventory is sold in subsequent years. This represents the reversal of prior periods' fair value adjustments in respect of biological produce as finished wine is sold in subsequent years. This has resulted in an adjustment of \$10.5 million for the period (31 December 2022: adjustment of \$9.6 million);
- Derivative financial instruments held to hedge the Group's foreign currency and interest rate exposure. The mark-to-market movement of these instruments at balance date resulted in a fair value write-up of \$4.5 million (31 December 2022: write-up of \$10.4 million).

TABLE 3 IMPACT OF FAIR VALUE ADJUSTMENTS

NZ\$ millions	Dec 2023	Dec 2022	% change vs 2022
Operating NPAT	37.8	40.2	-6%
Operating NPAT % of Revenue	19%	20%	
NZ IFRS Fair Value Items			
Biological Produce (Grapes) ¹	(10.5)	(9.6)	9%
Derivative financial Instruments	4.5	10.4	-57%
Total Fair Value Items	(6.0)	0.8	n/m²
Taxation of NZ IFRS fair value items	1.6	(0.3)	n/m ²
Fair Value Items after Tax	(4.4)	0.5	n/m²
Reported NPAT	33.4	40.7	-18%

Notes:

1. Biological Produce (Grapes) is the difference between market value paid for grapes and the cost to grow grapes. The Harvest Provision is reversed and only recognised when the finished wine is sold.

2. n/m means not meaningful.

RECONCILIATION OF REPORTING TO OPERATING PERFORMANCE

Accounting for all fair value adjustments under NZ IFRS, the Group's reported unaudited financial performance for the six months ended 31 December 2023 is reconciled to Operating Profit as detailed in table 4.

CASH FLOW

The Group generated Cash Flows from Operations of \$35.8 million in the current half-year, which is an increase of \$0.5 million on the same period last year. The increase is due to lower income tax payments for the FY23 tax returns due to deductibility of vineyard development expenditure, offset by lower collections from customers. A total of \$46.2 million was paid for additional property, plant and equipment during the period, including vineyard developments in New Zealand, and development of the Hawke's Bay and Marlborough wineries, which will provide earnings growth into the years ahead. The Group distributed \$20.2 million to shareholders in dividends. Net proceeds from borrowings of \$32.0 million were drawn down during the six month period.

The Group is well positioned to fund its current operations as well as future capital investment in both New Zealand and Australia. The Group's Net Debt at 31 December 2023 amounted to \$352.3 million, an increase of \$46.5 million compared with the last half-year and well within the Group's long-term bank debt facilities of \$420 million.

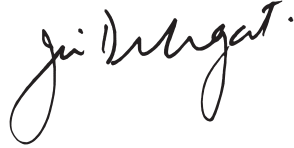

TABLE 4 RECONCILIATION OF REPORTING TO OPERATING PERFORMANCE

Depreciation and amortisation	12.8	-	12.8	12.0	-	12.0
EBITDA³	74.8	(6.0)	68.8	74.2	0.8	75.0

Notes:
1. EBIT means earnings before interest and tax.
2. NPAT means net profit after tax.
3. EBITDA means earnings before interest, tax, depreciation and amortisation.

LOOKING FORWARD

The Group maintains its 2024 Operating Profit guidance in the range of \$57.0 million to \$61.0 million.

NOTES TO THE FINANCIAL STATEMENTS

1. GENERAL INFORMATION

REPORTING ENTITY

The financial statements presented are those of Delegat Group Limited and its subsidiaries (the Group). Delegat Group Limited is a company limited by shares, incorporated and domiciled in New Zealand and registered under the Companies Act 1993. The Parent shares are publicly traded on the New Zealand Stock Exchange.

The financial statements for the Group for the six months ended 31 December 2023 were authorised for issue in accordance with a resolution of the Directors on 23 February 2024.

BASIS OF PREPARATION

The interim financial statements have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand (NZ GAAP), the requirements of the Financial Markets Conduct Act 2013, and NZ IAS 34: Interim Financial Reporting. Accounting policies applied in these interim financial statements comply with New Zealand equivalents to International Financial Reporting Standards, and other applicable Financial Reporting Standards (NZ IFRS) as applicable to the Group as a profit-oriented entity.

The interim financial statements are presented in New Zealand Dollars, rounded to the nearest thousand. They are prepared on a historical cost basis except for derivative financial instruments and biological produce which have been measured at fair value.

The preparation of the interim financial statements in conformity with NZ IAS 34 requires the Group to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may vary from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

DERIVATIVE FINANCIAL INSTRUMENTS

The Group uses derivative financial instruments such as forward currency contracts and options to economically hedge its risk associated with foreign currency and interest rate swaps to manage interest rate risk. Such financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into, and are subsequently remeasured to fair value at balance date. In estimating the fair value of the derivative financial instruments the Group uses level 2 inputs of the fair value measurement hierarchy. The Group's derivative financial instruments fall into level 2 of the fair value measurement hierarchy because their fair value is determined using inputs, other than quoted prices included in level 1, that are observable for the asset or liability, either directly as prices or indirectly (derived from prices). The fair values are derived through valuation techniques that maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates.

CHANGES IN ACCOUNTING POLICIES

The accounting policies adopted are consistent with those of the previous financial year. Refer to the published financial statements for the year ended 30 June 2023 for a complete listing of the Group accounting policies.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

2. SEGMENTAL REPORTING

The Group reviews its operational performance based upon the management and the geographic areas in which their customers are based. Financial information which is available to management in order to assess segment performance and investment opportunities is presented on the same basis. In accordance with NZ IFRS 8: Operating Segments this forms the basis of presentation for Segment Reporting and is the format adopted below:

– Delegat Limited (Delegat) is party to vineyard leases and has interests in freehold land and winery infrastructure which allows the company to grow, harvest and make finished wine to be marketed, distributed and sold into the Super Premium wine markets. Delegat sells and markets its product through a combination of subsidiary companies based overseas or to customers and distributors directly in the New Zealand, Canadian, Asian and Pacific Island markets. Delegat Australia Pty Limited, Delegat Europe Limited and Delegat USA, Inc. act as distributors and assist in the marketing of product in their respective geographic regions. Wines are sold all year round to all regions and the Group considers there is no significant variation in revenues throughout the year.

The Group implements appropriate transfer pricing regimes within the operating segments on an arm's length basis in a manner similar to transactions with third parties.

Management monitors the operating results of its business units separately for the purpose of making resource allocations and performance assessments. Segment performance is evaluated based on operating profit or loss, which may be measured differently from operating profit or loss in the consolidated financial statements as segment reporting is based upon internal management reports. The main differences are a result of some deferred tax balances being recognised upon consolidation not being allocated to individual subsidiaries. Also intercompany stock margin eliminations are managed on a group basis and are not allocated to operating segments.
